

Energieinfrastruktur Standort Berg

Legende

★

geplanter Wirtschaftsstandort Berg

380/400 kV (Höchstspannung)

220 kV (Höchstspannung)

110/132 kV (Hochspannung)

Mittelspannung (≤ 35 kV)

Erdkabel (Hochspannung)

Umspannwerk 380/400 kV

Umspannwerk 220 kV

Umspannwerk 110/132 kV

Kraftwerk fossil (Gas/Öl)

Wasserkraftwerk

Biomasse / Abfall

Photovoltaik-Kraftwerk

Windkraftanlage

PV-Anlage (Einzelobjekt)

Staatsgrenze

Gemeindegrenze

Luftlinie zum Umspannwerk

Kennzahlen (Luftlinie ab Standort)

• Lamač (110 kV): 5,9 km

• Umspannwerk Pama (110 kV): 9,4 km

• Ostredky (110 kV): 9,7 km

• nächste Hochspannungsleitung (≥ 110 kV): 1,0 km

• Windparks ≤ 15 km (OSM): 11 mit ca. 213 MW

• Windkraftanlagen im Ausschnitt: 325

The map displays the energy infrastructure surrounding the 'Standort Berg' (marked with a yellow star). It shows a network of high-voltage power lines (380/400 kV in red, 220 kV in orange, 110/132 kV in blue) and various types of power generation facilities. Substations are indicated by colored squares: red for 380/400 kV, orange for 220 kV, and blue for 110/132 kV. The map also identifies fossil power plants (purple diamonds), hydroelectric plants (blue diamonds), biomass/abfall plants (brown diamonds), and photovoltaic plants (yellow diamonds). Wind power is represented by green wind turbine symbols, with specific wind parks labeled with their capacity (e.g., WP Berg (20 MW), WP Kittsee (40 MW)). The map includes geographical features like the Danube river, several lakes (e.g., Haringsee, Breitensee), and numerous towns and villages. The international borders of Austria (ÖSTERREICH), Slovakia (SLOWAKEI), and Hungary (UNGARN) are shown. A scale bar at the bottom left indicates distances up to 10 km. A north arrow is located in the top right corner. A scale of approximately 5,9 km is shown between Standort Berg and Lamač, and approximately 9,4 km between Standort Berg and Pama.
